15. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1-8, and 17-23, drawn to an ethylene polymer film, classified in Class 525, subclass 240.
- II. Claims 9-16, and 24-30, drawn to an ethylene polymer film, classified in Class 525, subclass 240.
- The inventions are distinct, each from the other because of the following reasons:

Group I and Group II are related as mutually independent/exclusive inventions in view of the definition of "substantially linear ethylene/alpha-olefin interpolymer" and "linear ethylene/alpha-olefin interpolymer" defined in pages 4 and page 6 in the specification; the independent/exclusive inventions of Group I and Group II being also admitted by the applicants' attorney, Mr. Stephen Krupp in the telephone interview on November 9, 1993.

17. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

- 19. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
